# Foreword

The announcement that the noted Montana Hall Herd is to be dispersed will be received by the breeders of America with a mixed feeling of regret and elation . . . regret that such a grand collection is to be scattered and elation that such royally bred cattle are to be exposed for sale. A change in the location of Mr. Hewitt's business will take this family away from Montana Hall and Mrs. Hewitt has decided to completely disperse her fine herd.

The dispersal has been planned hurriedly and the cattle are to be sold without special fitting. However, those who have visited the farm recently will bear out my statement that all of the brood cows are in grand pasture flesh, all of the younger animals have been well developed, and the entire herd is in a high state of efficiency.

This herd was founded through the purchase of top individuals from the greatest herds in America without regard to price. Those who study the catalog will immediately recognize that the most noted sires in America are represented. In order that Polled Shorthorns might have the improving influence of the leading sires of the horned branch of the breed, a few royally bred Shorthorn cows were included in the foundation. Coronet Command x has proved a great sire. He is now in the prime of his life and the eyes of the entire industry will be focused on the herd of his new owner.

From the very outset, every possible precaution has been taken to safeguard the health and efficiency of each individual. A rigid culling program has been followed and animals with the slightest fault have been eliminated. Special emphasis has been placed on docility and none have been retained that displayed any signs of nervousness.

The owner wishes is to be known that a few calves were lost in the summer of 1945 from an undetermined cause. The entire herd was put to an immediate test and all were clean. Subsequent tests have also been clean. The trouble was quickly corrected and more than thirty cows sell in this sale with calves at side, many others being close to calving.

The footnotes in this catalog are frank and not in the least overdrawn. Where an animal has a fault, this fact is revealed. All cows in the sale with the exception of two are very liberal milkers and the two that are lacking in this respect are named. The pictures of sale animals taken recently at the farm are entirely unretouched.

I firmly believe this to be a great buying opportunity. It is my sincere hope that Mrs. Hewitt will be back in the business sometime in the future because she has delivered a real service to the Polled Shorthorn industry.

—Hal Longley of The Shorthorn World.

To perpetuate the leadership qualities of the Polled Shorthorn breed by producing the highest type animals that careful selection and breeding could make possible has been the aim at Montana Hall. The top individuals from the greatest Shorthorn and Polled Shorthorn herds in the land were secured to carry out this aim. ALL are to be sold in this dispersion.

Coronet Command x2007472, one of the most famous bulls in Polled Shorthorn history. He is now seven years old and will be sold in this sale. He was awarded grand championship at the International Live Stock Show in 1941 and his sire, Cherry Coronet x, was the 1937 International grand champion. One of his sons, Oakwood Command x, sold to an Australian buyer last year at \$4700. Coronet Command x is in excellent breeding condition, is perfectly sure, and still displays his grand championship form. He is one of the outstanding sires of the breed as his many calves in this sale will prove. Who will be the new owner of this famous breed improver? This is an opportunity that could only come in a dispersion.

**Maxwalton Gloster 88th x**—When we bought this cow in 1941, Pete Ross's footnote on her said "She is out of what I consider to be my best cow and of my best breeding. Every animal for many generations has been perfect in color and conformation. She will be one of the good cows in any herd." She has certainly lived up to his boasts. Her first calf was the roan bull purchased by Oakwood Stock Farm and renamed Oakwood Gold Nugget x that sold to John Warmbrod & Son at the International Congress at Memphis. Her second calf was another roan polled bull by Coronet Command x, sold to Robert G. Queen of Hearts 4th x—Queen of Hearts' first calf was a white bull by Claytoun Coronet. He did not come down properly and we beefed him; he was quite a fine individual. Her second calf was by an Angus bull. Her third calf is a polled roan heifer, May 27, 1946, by Gosshall Ximenes, selling at foot. This is a very good cow, in whom I believe, in spite of the fact that she has not done anything for me. She is a full sister to Thieman's famous herd bull, King of Hearts x.

**Victoria Maid 3rd x**—This is one of my two favorite cows by Browndale Golden Victor x. She is the dam of the red bull purchased by Oakwood Stock Farm, re-named Oakwood Command x, and sold for \$4,600.00 to Australia. Her second calf is the young roan cow Victoria Maid 4th x, selling in this sale. Her third calf is the red polled bull Wellington x, selling in this sale, and she has at foot a red polled heifer calf by Coronet Command. She was re-bred to Coronet Command August 19, 1946. This cow breathes very heavily and rather worse in hot weather. This difficulty has never affected her ability to raise calves or to keep herself in good condition. There appears to be some obstruction in the windpipe but I cannot get any of the vets excited about it.

Leveldale Rosewood 13th—This is one of my favorite cows, so far as individuality is concerned. Both her parents were grand champions and she is a full sister to two champions, Leveldale Rosewood 5th and 10th. Leveldale Rosewood 10th was twice a winner at the International before she was two years old. She has had two polled roan heifers for me, the last by Geronimo x, dropped April 2nd, 1946 and selling at foot. She is in calf to Montezuma x since June 23rd.

**Rosewood Anoka 30th**—This is a fine big cow that has produced two heifers for me by Oakwood Pure Gold x, the second of which sold for \$500 at the Winchester sale this spring to Mr. Robert Geisy, of Ohio. She died two weeks later as the result of an injury at service. She was really a nice heifer. Her oldest sister looked just like her and was sold to Correll Campbell, Winchester, Va. Her third heifer was still-born Nov. 10, 1945. She was the second one lost because our herdsman was at the Staunton sale. The cow is in calf to Coronet Command x since February 28, 1946.

Kalarama Flora 11th—This cow, despite her age, I consider to be one of the real chances in the sale. She produced several good calves before I bought her and for me has had two good roan daughters, both of which I sold at the Winchester Sale this spring, one going for \$1,100 to Oakwood Stock Farm and one going for \$450 to Mrs. Marie Moore, of Warrenton, Va. She is a wonderfully good milker. She lost her 1945 calf during our run of bad luck but will have another by Coronet Command x at the end of November. The breeding date is February 22, 1946. This is a real tip-top cow.
